MEMORANDUM FOR: Deputy Director for Intelligence

SUBJECT : CIA Support for Flanigan Staff

1. Peter Flanigan is relying heavily on CIA to prepare a new version of last year's Peterson report "The United States in the Changing World Economy." [redacted] is spending a couple of months with CIEP to monitor the project and I have just learned that DDP also is sending someone to help Sid. CIA is preparing all the graphics -- a very heavy load indeed. In addition, Flanigan apparently expects CIA to print the first 1,000 copies of the report. Although Flanigan apparently is prepared to request these services in writing from the Director, he has not yet done so.

2. As you know, largely in reaction to PSD's involvement with the Peterson report, the Director of Logistics wrote a memorandum to the DDS in which Colby concurred, establishing the policy that individual offices may not accept outside printing requests for PSD and that outside CIA requests for printing unclassified material will be accepted by PSD only if approved by the Executive Director-Comptroller.

3. The options appear to be:

1. For you to talk to Colby soon and get his views on this matter; or

2. To wait for a formal request from Flanigan which according to [redacted] should be forthcoming, and presumably would be routed to Colby.
